Service

60-year history of Sammic provides a solid base from which to contemplate the future with optimism and confidence.

The Company was founded in 1961 in Azpeitia, Spain, in a region of long industrial tradition and one of the world's top culinary destinations, with 11 Michelin Star restaurants (averaging 2 each). This mix of high end industrial development and great gastronomic orientation has a lot to do with Sammic's past, present and future.

We offer the services of our corporate chef who, in addition, collaborates closely with our R+D department developing new solutions. Our equipment is tested by different types of end-users before they are launched, from cutting-edge restaurants to big production caterings. This closeness to the final user allows us to develop solutions that best fulfill the needs of the most demanding users.

Sammic started its activity manufacturing potato peelers. Today, we are delighted to offer a wide range of solutions organized into 4 product families. All this thanks to Sammic's historical tradition in research and development of markets and products.

at your service

Thanks to our historical trajectory that has allowed us to accumulate knowledge and experience, we have created **Sammic Services**.

Sammic Services is a platform from which we want to share our skills and knowledge with our market, both with distributors and with end users.

We know that the needs of our distributors and users are not always satisfied with just machines.

And we know that our dealers and users need more than a good machine to get the better of it.

Sammic Services: AT YOUR SERVICE.

MARKETING SERVICES: WE HELP YOU TO SELL MORE, TO SELL BETTER.

Our website has been designed for you. We provide exhaustive information about our activity and products, as well as documents and exclusive services.

And we have a flexible marketing department with great responsiveness that allows us to assist the distributor on the specific needs that may require our assistance: supply of databases, custom designs, posters ... and more.

CHEF'S SERVICES: A WHOLE TEAM AT YOUR SERVICE.

Sammic has teamed up with Fleischmann's Cooking Group to

offer training and provide consulting services to our Dealers and End Users. With our corporate chef and from our training kitchen we offer standard or ad-hoc services in-situ, at the customer's facilities or on-line. Services that will help you get the best from our equipment or to choose the appliances that best suit your needs.

DESIGN SERVICES: WE ADAPT TO YOUR NEEDS.

Tell us about your requirements and we will propose you the solution that will allow you to maximize your investment. Or we will adapt our product to your requirements.

TECH SERVICES: EVERYTHING YOU NEED TO KNOW TO GET THE BEST OUT OF OUR EQUIPMENT.

From our TAS, we provide training to our dealers' own technical services. From our training room or at the customer's facilities, we offer customized training, always depending on the needs raised by the distributor.

WARE WASHING

Glasswashers · Dishwashers AX - UX

A family with Values

One core TWO RANGES

AX

The Active range has been developed with the aim of making the latest washing technologies available to professionals, without the hassle.

All this, with all the advantages of the new Sammic ware washing family: deep-drawn tanks, Hydroblade arms, 3-stage filters, ergonomics, and resource efficiency.

Active Xperience

- Simple and user-friendly control.
- Intuitive feedback using icons.
- Dedicated cycles: selection of the ideal wash programme using icons. The duration of the cycle is adapted according to the type of item to be washed.
- Electronic control panel with IP65 humidity protection.

UX

The Ultra Range has been conceived in an aim to meet the expectations of the most demanding sectors, whether they are after sparkling finishes, high productivity or are rigorous with hygiene management.

Equipped with state-of-the-art technologies: Colour LCD Display

- Advanced image sharpness to make the screen easy to read from any angle and distance.
- The control panel is the centrepiece of the Ultra "experience". A panel that combines technical sophistication and ease of use.
- Quick and intuitive reading of machine information and status through messages, colour-coding and icons.

Soft start

- Progressive start of the washing pump to protect fragile or delicate items.

Wide list of options

- The wide line of options available allows to adapt the glass- and dishwashers to each user's particular needs.

A family with Values

AX and UX lines of Sammic dishwashers are based on key de-sign principles to provide an advanced user experience.

Washing efficiency

Hygiene and ergonomics

Resource efficiency

Reliability

Constructive quality

Deep-drawn wash chambers in all models. This construction technique offers numerous advantages that are useful on a day-to-day basis:

- Basket guides are deep-drawn and integrated into the body for improved hygiene and structural robustness.
- Ergonomic design with rounded corners prevent the accumulation of dirt and facilitate cleaning.

YOU WIN, THE ENVIRONMENT WINS

The deep-drawn chambers offer higher performance with 30% water saving.

Hydroblade arms

The combination of the linear design and the "monoblock" construction provide higher washing efficiency and lower water consumption.

Water consumption during rinsing.

-30%

Lighter for faster rotation to generate a more uniform and powerful water jet.

-40%

Hygiene guarantee

All Sammic dishwashers have been designed according to DIN 10534 standard to ensure optimum disinfection.

In addition, the effectiveness of our dishwashers is backed by clinical tests in independent laboratories.

Enhanced loading capacity

Optimal performance, versatility and ergonomics during loading operation.

	Useful height	Compatible items
Glasswashers	300 mm	 30 cm  2x
Front loading dishwashers	380 mm	 GN 1/1  2x
Pass-through dishwashers	430 mm.	 GN 1/1  Euro norm 1/1  40 cm Ø 40 cm

3-stage filtering system

1 The “easy-on” surface filters retain heavy dirt, capturing up to 80% of the waste.

2 The tank filter has a larger capacity for blocking medium-sized debris.

3 With the extraction filter, the lightest dirt is blocked, without affecting the suction of the washing pump.

“Easy-Grip” door

The “Easy-Grip” handle provides perfect adherence, even with wet hands. In addition, its design provides the following advantages:

- ✓ **Sturdiness**
- ✓ **Hygiene and cleaning**
- ✓ **Ergonomics**

Commercial Glasswashers

Glasswasher for small size hospitality

Washing efficiency, reliability, hygiene, ergonomics, optimised consumption... these are the technical attributes that every professional needs. That's why Sammic is offering two ranges of dishwashers based on a common core.

Sani-Control guarantee

- GUARANTEED DISINFECTION in compliance with standard DIN 10534.
- THERMAL LOCK function: Ensures that rinsing will be carried out at the ideal temperature to disinfect the dishes.

Deep drawn tanks

- Ergonomic design with rounded corners to prevent the accumulation of dirt and facilitate cleaning.
- Compact tank volume (50% water saving compared to the previous range).
- Embedded basket guides.

Hydroblade™ washing arms

- Redesigned nozzles for greater washing performance.
- The "monoblock" design delivers durability and resistance to impacts.
- 30% savings in water consumption during rinsing compared to the previous range.

3-stage filter system: surface, tank and extraction

- Keeps the washing water in optimal conditions to maintain constant washing performance.
- The surface filters feature an "easy-on" design and can be quickly removed without having to disconnect the washing arms.

"Easy grip" door: new design with integrated door handle

- The integration of the components provides greater resistance and robustness.
- Designed to have no corners or areas that are difficult to access: prevents deposits of dirt and facilitates cleaning.
- Its ergonomic handle provides a perfect grip, even with wet hands.
- Double-walled door with safety microswitch and high quality seal.
- 30 cm load capacity: high versatility for washing a wide range of glasses and even medium-sized dishes.

You will never WASH ALONE

- Tech-Services: our team of technicians will help you so that your machine is always ready for use.
- Design Services: tell us what your needs are and we will advise you.
- 60 years of experience and know-how at your disposal.

Turbo Liquidisers

Heavy-duty, 1- or 2-speed turbo-mixer

Commercial turbo-blenders designed to work in up to 800 lt. containers

Ideal for big production needs

- Designed for large yields and for frequent use and cleaning.
- Mix and liquefy directly in the pot or pan for making consommés, soups, omelettes, mayonnaise, etc.
- Ideal for kitchens with large production capacities and for food industry.
- Available in 1 or 2-speed versions.

Sturdy construction

- Fully manufactured in 18/10 stainless steel.
- Designed for large yields.
- Allow working in containers of up to 800 lt. / 130 gallons.
- 24" long arm for blending in any type of cooking pot.
- 0-60 min. built-in timer.

Easy and convenient handling

- They can be moved in several directions and are height-adjustable.
- **The machine is fitted on a trolley** with 4 non-slip rubber wheels, 2 of them with brakes.
- The balanced liquidiser arm stops the arm when falling or tipping back when not locked.
- An arm securing lever, located on the trolley, allows you to lock the blender with one hand while holding the trolley with the other.
- The watertight, tilted control panel is easily accessible even during use.
- Their built-in timer allows leaving the machine running for up to 60 minutes without the need for user involvement.

Versatility, thanks to 3 types of interchangeable grids

- 21D for fibrous ingredients.
- Standard 30D multi-use attachment.
- 42D attachment for very fine blending.

Guaranteed safety

- The safety micro switch controls work position and prevents the turbine from working if the arm is too high or low.
- The wiring incorporated into the trolley tubes, so the work area is free of cables and does not hinder the movement of the blender arm.
- Supports for storing the power supply cable prevent it from getting caught or tangled during storage.

	Designed for up to 800 lt. containers.		1 or 2-speed appliances.		Interchangeable grids to obtain the desired finish.

PS- 22R / 32R REFRIGERATED RANGE

Refrigerated meat mincers

The highest hygiene in processing in respect of the HACCP methodology; in order to improve the service to the customer. A sturdy, reliable machine. For food stores and catering.

Refrigeration system allows to grind meat without interrupting the cold chain. Thus, the development of bacterial flora is interrupted. The resulting product keeps its taste, colour and nutritional characteristics intact for a longer period of time. The refrigerated meat mincers allow discontinuous use without the need of detaching the cutting unit to clean and store in the refrigerator.

The frame, hopper and mouth are stainless steel (AISI 304) made. The mouth is easily detachable for cleaning purpose.

The ventilated, powerful motor offers start, stop and reverse function.

Sammic refrigerated meat mincers comply with all hygiene and safety and all specific **regulations**.

PS- 22R / 32R meat mincers are equipped with a low noise sealed compressor using ecological refrigerating gas and with an electronic thermostat for precision temperature control.

Vacuum packing machines - "Sensor Ultra" line

SU line. Vacuum controlled by sensor with widest range of options and a 3.9" LCD colour screen

The professional Sammic vacuum packing machines enable the extension of the shelf life of raw or cooked foods, without weight loss, without drying out or mixing of flavours and odours.

Maximum quality construction

- Equipped with Busch pumps.
- Vacuum controlled by an extremely accurate sensor.
- Digital control panel with 3,9" LCD colour screen: all information at a glance.
- The backlit touch keyboard protected against the splashing of liquids.
- Double seal system to ensure the durability of the packing.
- Cordless sealing bar.
- Both the chamber and the body are made of stainless steel.
- Recessed chambers in the 300 and 400 series.
- Damped transparent lid of highly durable polycarbonate.

Advanced performance in all models

- Memory of programmes: capacity to store 25 different vacuum programmes with the possibility of locking.
- Staged vacuum programme for soft and porous products.
- System for detecting the evaporation point, ensuring the maximum possible vacuum.
- Progressive decompression to prevent the piercing of the bag by sharp-edged products.
- Vac-Norm ready with automatic decompression.
- Bag-sealing programme.
- "Pause" button to marinate food.
- Optional sealing "plus" system for sealing metal type bags.
- Optional label printing system, thanks to Bluetooth connection.
- Optional installation of the gas injection system.

Hygiene and durability guarantee

- Cordless sealing bar for simple and easy cleaning of the chamber.
- Vacuum chambers free of sharp edges and with rounded contours to facilitate cleaning.
- Safety system with protection against vacuum failure.
- Dry-oil programme for drying the pump.
- Working hours counter for oil changes.
- NSF listed.

Sous-vide cookers

Commercial precision cooker to get the best products

Temperature-controlled sous-vide cooking has become an indispensable technique for any kitchen that follows the latest trends. This technique allows to obtain more tender, tasty products with the best texture, with the minimum loss of moisture and weight.

Benefits of sous-vide cooking

Product quality: more tender and tasty product and with a better texture.

- Minimal loss of moisture and weight.
- Preservation of flavour and aroma.
- Flavours are enhanced and colours retained.
- Nutrients are preserved unlike traditional cooking.
- Research has shown that sous vide gives the highest retention of vitamins vs. steaming and boiling.
- Little additional fat and salt are required during cooking.
- Consistent results.

Operational and economic benefits:

- Allows to prepare dishes in advance, making work organisation easier in peak periods.
- Minimizes waste by advance preparation of controlled portions.
- Low energy consumption compared with ovens and gas ranges.
- Non-use of gas reduces room temperature in kitchen, and fire risk.
- Several meals from starter to dessert can be regenerated simultaneously in the same bath.
- Reduction of clean-up time.
- Very simple use and consistent and uniform results.
- Production planning allows the restaurant to offer a wider variety of dishes.

SmartVide by Sammic:

- It can be fitted in seconds into a standard gastronorm container of different sizes.
- Easy to stock and transport.
- Stability/uniformity: $\pm 0.1^{\circ}\text{C}$.
- Minimum container depth: 150 mm.
- Bluetooth connectivity.
- HACCP-ready.
- Janby Track ready.
- Recipe memory.
- Firmware update.
- Optional core probe.

Blast Chillers

Blast chilling, shock freezing and automatic preservation

Sammic blast chillers are designed to improve the quality and organisation of the work in restaurants, confectioneries, bakeries and ice-cream shops. Great power, versatility and reliability are the most evident features of Sammic blast freezers.

Sammic blast chillers / freezers improve the work of operators, leaving more time for creativity.

Quick chilling helps to maintain the quality of food, preserving the nutrients and improving the efficiency of cooking processes.

A wide range of applications

- Frozen pizzas, fresh pasta, confectionery, gastronomy, ice creams, desserts, baked goods, etc.

One piece of equipment, several functions

- Quick chilling to +3°C which inhibits bacterial proliferation, prevents food dehydration due to evaporation and makes it possible to preserve the original properties of food for five to seven days.
- Deep-freezing to a core temperature of -18°C in less than four hours, avoiding the formation of macrocrystals, an essential requisite if - at the time of use - unfrozen food is to keep its original consistency and quality.
- Automatic preservation at the maintenance temperature programmed after each operation.

Robust, hygienic and reliable construction.

- Manufactured in stainless steel with hygienic cathodic protection and easy to clean
- Insulation with expanded polyurethane foam in water free of CFC's and HFC's
- High-power compressors for quick chilling
- Indirect air flow
- Freon refrigerant with a low GWP content.
- Evaporators treated with cataphoresis to reduce odours and moulds, favouring performance and durability over time.

Advanced control panel

- Cycles per temperature, time or core probe.
- HARD function for rapid cooling, SOFT for deep-freezing.
- Data storage at the end of the cycle.
- Possibility of customising and saving cycles and settings.
- HACCP functions for storing alarms.
- Bluetooth Connectivity for maximum control over processes.

Special cycles

- Pre-cooling.
- Sanitation of raw fish.
- Ice cream hardening.
- Other optional cycles: defrosting, internal sterilisation, cooling by core probe.

VITRO-GRILLS - GV RANGE

Griddles with cover, glass-ceramic upper and lower surfaces

Glass-ceramic upper and lower surfaces allow to cook directly. Stainless steel made, they are equipped with an easy-to-clean stainless steel back protection and a waste collection drawer in the front. The adjustable thermostat reaches 300°C.

GV range of glass-ceramic griddle plates consists of medium- and double-sized smooth and ribbed contact grills. They are quick heating appliances, minimising waiting time until the grill is ready to use and reducing energy costs.
